### **Signal Hound Announces Field Calibration Software for BB60C**

**WASHINGTON, D.C.—ASSOCIATION OF OLD CROWS—Booth #802—October 7, 2014**—Signal Hound now provides Field Calibration Software for the Signal Hound BB60C spectrum analyzer and recorder. The calibration software performs verification for the BB60C and produces full measurement reports, with data, to verify results. It can also provide time base adjustments and tests every hard specification published for the BB60C.

Calibration facilities and customers who want to perform BB60C calibration will utilize the software to reduce calibration time from hours to minutes.

“Customers can trust the BB60C to make traceable measurements,” said Bruce Devine, CEO, Signal Hound. “If calibration facilities and end users employ our software to perform calibrations, it will save them a lot of time, increase our product’s overall value to them, and make it a truly reliable instrument—capable of making traceable measurements for many years to come,” Devine concluded.

#### **About Signal Hound BB60C**

The Signal Hound BB60C is a real-time spectrum analyzer and RF recorder. It is compact and simple to use. The BB60C has a frequency range of 9 kHz to 6 GHz,

an instantaneous bandwidth (IBW) of 27 MHz, and the ability to sweep the RF spectrum at 24 GHz per second.

Signal Hound BB60C is ideal for real-time remote spectrum monitoring, automated test equipment, interference hunting, spread spectrum signal analysis, capturing intermittent events, engineering, and general purpose troubleshooting.

### **Price and Contact Information**

The Signal Hound Field Calibration Software is free of charge.

The software can be downloaded at:

<https://www.signalhound.com/campaigns/managed/download-bb60c-field-calibration-software>.

The software supports a number of Agilent/HP lab standards. (See User's Manual at <https://www.signalhound.com/support/downloads/bb60c-bb60a-downloads/> for a list of required lab standards.)

The Signal Hound BB60C spectrum analyzer and recorder is in stock and ready to ship. It sells for \$2,879 USD. Pricing will vary outside the USA. For more information, contact [sales@signalhound.com](mailto:sales@signalhound.com) or call 1-800-260-TEST. Outside of the United States, please visit our website at [www.signalhound.com](http://www.signalhound.com) to find the nearest distributor.
